ANNEXURE B TO THE DIRECTORS' REPORT

Management Discussion and Analysis

Industry Structure and Development

The overall industrial production scenario in the country is less encouraging as compared to last year. The cumulative growth in the index of industrial production for the period April – December 2011 -2012 stood at 3.6% over the corresponding period of previous year. The cumulative growth during April – December 2011- 2012 over the corresponding period of previous year 2010-11 for the manufacturing sector stood around 3.9%.

Fire Protection Systems - Industry Scenario

In the last decades, India has witnessed a number of man made and natural disasters and this has necessitated the need of installing robust fire detection and protection systems that enable mitigation of risks arising out of fire and security threats. . The main functions of Fire Protection Systems in India are provisions of fire protection and of services during emergencies in industries and high rise buildings and other buildings having special fire risks, etc. But as the years passed by, awareness about risk management and safety has increased and fire protection and detection became integral aspects of a structural set up done by architects and design consultants. People at large are increasingly becoming aware about the risks and the need to have a firefighting/detecting system supplemented by other surveillance systems and thus the Indian Industry, is definitely warming up to the fire protection and detection industry and the total market of the fire protection industry has been growing.

Opportunities and threats

Due to increased awareness on Disaster Response Planning, Emergency Evacuation Procedures and with rapid strides in technological developments, major focus on environment, health and safety, the opportunities for fire fighting and protection systems are boosting continuously. Since its inception, the Company has strived to provide the most effective and optimum fire protection solution to its customers. Over the decades the Company has provided widest range of Fire Detection & Protection Systems for various premises catering different industries such as Power Plants, Substations, Refineries Petrochemicals, High Rise Buildings, Hotels etc. in complete length and width of country. The company's strength lies in its ability of binding together engineering talent and experience, prompt services, ethical business policies, reasonable pricing of products as well as the latest technological breakthroughs. The major threat today is competition which is heating up the market with many players in the fray for providing firefighting and detection systems.

Financial Performance

During the year under review, there was no Sales. The Profit before Interest, Depreciation and Tax for the year under review is 0.01 Million (previous year's Profit INR 7.56 Million)

and the Net Profit after Tax amounted to INR 1.24 Million (previous year INR 5.99 Million).

Outlook

The industry is likely to grow due to growth in High Rise Buildings, Power Plants, Petrochemicals, Oil Refineries. Also support from government by providing fiscal incentives, subsidies, enforcement of regulatory norms, to give tax breaks, can contribute to the growth of this industry and will ensure the sustainability if this industry in future.

Though the global slowdown is expected to persist and environment looks weakest, recovery is possible by setting long term objectives and initiating efforts in that direction and embracing newer technologies to deal with newer dimensions of risk the outlook for the year ahead is certainly challenging and will lead successful growth path for this industry.

Risks and concerns

The Industry is facing problems due to increasing competition, high risk profile Infrastructure projects, long gestation periods of infrastructure projects, changes in Government policies, lack of investments by Government and domestic giants, low spending on R & D, continuous fluctuations in the market etc.

The downturn in business activities of the Company in last few years have resulted in the severe liquidity crises. The net worth of the Company has been completely eroded and the Company has accumulated loss of around INR 64.21 Million.

Internal Control System & its adequacy

All projects and related orders for equipment have been completed with highest degree of quality and efficiency. Costs are being regularly controlled and monitored to achieve or better the estimated margin.

The Company has in place adequate system of internal control procedures covering all financial and operating functions. Internal control and its effectiveness is reviewed through the process of internal audit. The Audit Committee of the Directors also monitors the adequacy of the internal control systems through regular review of findings of internal audit and implementation of the recommendations thereof.

Human Resources

There is nothing significant to be mentioned under this head as there are no employees under direct employment of the Company.

Cautionary Statement

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be a forward looking statement within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied. Important factors that could make a difference to the Company's operations include among others, economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes and incidental factors.

Auditors' Report

To the Members of

Mather and Platt Fire Systems Limited

We have audited the attached Balance Sheet of Mather and Platt Fire Systems Limited ('the Company') as at 31 December 2011 and also the Profit and Loss Account and the Cash Flow Statement of the Company for the year ended on that date, annexed thereto. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

1. As required by the Companies (Auditor's Report) Order, 2003 ('the Order'), issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956 ('the Act'), we enclose in the Annexure, a statement on the matters specified in paragraphs 4 and 5 of the said Order.
2. Further to our comments in the Annexure referred in paragraph 1 above, we report that:
 - (a) we have obtained all the information and explanations, which to the best of our knowledge and belief, were necessary for the purposes of our audit;
 - (b) in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

- (c) the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (d) in our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Act, to the extent applicable;
- (e) on the basis of written representations received from the directors as on 31 December 2011, and taken on record by the Board of Directors, we report that none of the directors is disqualified as at 31 December 2011 from being appointed as a director under clause (g) of sub-section (1) of Section 274 of the Act; and
- (f) in our opinion and to the best of our information and according to the explanations given to us, the said financial statements give the information required by the Act, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (i) in the case of the Balance Sheet, of the state of affairs of the Company as at 31 December 2011;
 - (ii) in the case of the Profit and Loss Account, of the profit of the Company for the year ended on that date; and
 - (iii) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

1.1 Background

Mather and Platt Fire Systems Limited ('the Company') was formed as a result of a demerger of Mather and Platt (India) Limited on 18 April 2001. Consequently the business of fire systems was transferred to the Company.

The Company is a subsidiary of WILO SE ('the Holding company' formerly known as WILO AG), a company headquartered in Dortmund, Germany.

The Company is primarily engaged in the business of design, development, installation and servicing of Fire Securities systems. The Company has its corporate office at Chinchwad, Pune. Currently there are no commercial operations carried out by the Company.

1.2 Going concern

The accumulated losses of the Company have exceeded its net worth as at 31 December 2011. However, Management believes that the Company will be able to continue operations on a going concern basis and meet all its liabilities as they fall due for payment in the foreseeable future on the basis of the financial support from the Holding Company, WILO SE, Germany. The Holding company has agreed to provide necessary financial support to meet the liabilities of the Company till 31 December 2012. In this regard, the Company has received a letter dated 4 January 2012 from the Parent Company confirming that they will provide the necessary financial support till 31 December 2012.

Accordingly, these financial statements do not include any adjustments relating to the recoverability and classification of the carrying amount of assets or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

2. Significant accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting and comply with the Accounting Standards prescribed in the Companies (Accounting Standards) Rules, 2006 and the relevant provisions of the Companies Act, 1956 ('the Act'), to the extent applicable.

2.2 Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates. Any difference between the actual results and estimates are recognised in the period in which the results are known/ materialize. Any revision to accounting estimates is recognised prospectively in the current and future periods.

2.3 Fixed assets and depreciation

Fixed assets are stated at cost of acquisition less accumulated depreciation. Cost includes inward freight, duties, taxes and other incidental expenses related to the acquisition, construction and installation of the fixed assets.

Depreciation on fixed assets is provided on the Straight Line Method ("SLM") pro-rata to the period of use. Depreciation is provided based on the useful life of the assets as estimated by the management as follows, or at the rates prescribed under schedule XIV of the Act, whichever is higher.

Category / Group of Asset	Rates (%)
Plant and Machinery	
Computers	33.33
Production machinery	10.34
Patterns	11.31
Furniture and Fittings	
Furniture and fixtures	6.33
Hard furnishing	6.33

Assets individually costing Rs 5,000 or less are depreciated fully in the year of purchase.

ANNUAL REPORT 2011

Schedules to the financial statements

2.4 Impairment of assets

In accordance with Accounting Standard 28 – Impairment of Assets (AS 28), the carrying amounts of the Company's assets are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indications exist, the assets' recoverable amount is estimated, as the higher of the net selling price and the value in use. An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. If at the Balance Sheet date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

2.5 Investments

Long-term investments are stated at cost less any other-than-temporary diminution in value, determined separately for each individual investment.

2.6 Inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and other costs necessary to make the sale. Cost is determined on the basis of weighted average method and includes expenditure in acquiring the inventories and bringing them to the present location and condition. In the case of semi finished goods inventories, cost includes cost of direct materials and labour and an appropriate share of overheads. The comparison of cost and net realisable value is made on an item-by-item basis.

Raw materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of finished products will exceed their net realisable value.

2.7 Revenue recognition

a) *Product sales*

Revenue from sale of goods is recognised when all significant risks and rewards of ownership of goods are passed onto the customers. Sales are recorded net of sales tax / value added tax, discounts and rebates.

b) *Interest income*

Interest income is recognised on a time proportionate basis taking into account the amount invested and the rate applicable.

c) *Other*

Other items of income are accounted as and when the right to receive arises.

2.8 Operating leases

Lease payments under operating leases are recognised as an expense in the Profit and Loss Account on a straight-line basis over the period of the lease.

2.9 Foreign exchange transactions

Transactions in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction. Exchange differences arising on foreign currency transactions settled during the year are recognised in the Profit and Loss Account of the year.

Monetary assets and liabilities denominated in foreign currency at the Balance Sheet date are translated at the year end exchange rate and the resultant exchange differences are recognized in the Profit and Loss Account.

2.10 Taxation

Income-tax comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised

Schedules to the financial statements

as at 31 December 2011

(Currency - Indian Rupees)

only to the extent there is reasonable certainty that the asset can be realised in future; however, where there is unabsorbed depreciation and carried forward losses under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of the assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written-up to reflect the amount that is reasonable/ virtually certain (as the case may be) to be realised.

In accordance with the guidance note issued by Institute of Chartered Accountants of India, the Company recognizes Minimum Alternate Tax credit as an asset only to the extent the probability exists that the Company will be liable to pay normal income tax during the specified period as per provisions of the Income Tax Act, 1961.

2.11 Earnings per share ('EPS')

The basic EPS is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

Diluted EPS is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and equivalent dilutive equity shares outstanding during the year, except where the results would be anti-dilutive.

2.12 Provisions and contingencies

A provision is recognised in the Balance Sheet when the Company has a present obligation as a result of a past event and it is probable that an outflow of economic resources will be required to settle the obligation, in respect of which a reliable estimate of the amount of the obligation can be made. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

A disclosure by way of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of economic resources. Where there is a possible obligation in respect of which the likelihood of outflow of economic resources is remote, no provision or disclosure is made.
